EVENT NAME : SPOT AND SOLVE

EVENT DESCRIPTION:

Spot and Solve is an Image-Based Open Source Intelligence (OSINT) quiz where participants analyze real-world images and extract meaningful visual clues to answer location-based questions. Using publicly available tools, AI platforms, and logical reasoning, participants must identify locations, landmarks, and time of day from the given images. This event tests visual intelligence, analytical thinking, and research skills.

TEAM DETAILS:

- Participation Type: Individual only
- No team participation allowed
- Open to all eligible students

EVENT DURATION:

- Total Duration : 30 minutes
- Event Time : 2:30 PM – 3:00 PM
